

Chris De Burgh, Love Is My Decision

And when they tell you that you're crazy
You got to try to settle down
You got to turn yourself around
Live is more than just good times and parties
You've got the moon in New York city
You've got the whole world in your hands
Too many cards from Disney Land
Sayin' that I'll be sorry, come one day
But if, I ever had to choose
Love is my decision
With you I just can't lose
You stay here by my side
Love is my decision
Forever you and I
I'll tell you this
If you should ever go away
I know, that I could never live a single day without you
You are the one that lights my world up
The one that money just can't buy
And now I promise I will try
Maybe even a family, together
But if, I ever had to choose
Love is my decision
With you I just can't lose
You stay here by my side
Love is my decision
Forever you and I
If I ever had to choose
If I ever had to choose
