

Chris Deburgh, I See You Everywhere

I see you everywhere, I see your eyes, touch your hair
You took me on a highway to the stars and left me halfway there
I hold you in my dreams, your tender kiss is never what it seems
'Cos when I wake up in the morning sun, I look but you're not there
I cannot believe this has happened to me
It's been heaven in your arms
You gave me so much with an angel's touch
And then you took my heart
I see you in the street and people turning at my running feet
But when I get up close, a stranger's eyes are looking back at me
Oh, I cannot believe this has happened to me
It's like heaven for one day
You left me like this with an angel's kiss
And then you flew away
I see you everywhere, I see your eyes, touch your hair
I'm gonna take that highway to the stars and I will find you there
I see you everywhere, I see you everywhere
I see you everywhere, I see you everywhere, everywhere
And when I'm looking for you, I'm gonna find you
And when I find you I am, I'm gonna hold you
And when I hold you I am, I'm gonna love you
And when I love you it will, it will be forever
