

Chris Eaton, Old Friends

There's a ring around the moon tonight
And chilling wind
But I don't have to be afraid
Cause we're old friends
There's a heartbeat of our Mother Earth
And it's so deep within
Oh, and I'm never short of company
Cause we're old friends

Chorus:

So let it snow 'til it's ten feet deep

Let the mist roll in

'Til I am too blind to see

Let the waters rise

Encircling me

Old Friends -- we'll always be

And Heaven is a perfect place

At the journey's end

Oh and I'm looking forward to that day

Cause we're old friends

(Chorus)

Old friends ... you and me

Old friends ... we will be

Old friends ... you and me

Old friends ... we will be

Old friends ... you and me

Old friends ... we will be
