

# Chris Isaak, Notice The Ring

Long legged  
Good looking  
You got everything  
Slow walking  
You come up  
Then I notice the ring  
I notice the ring

You're talking, I'm listening,  
But I don't hear a thing  
Is it something he bought you  
Or only a ring, oh baby

I notice the ring, does it mean anything

You don't gotta fool me if you say it's only jewelry  
I believe you when you slip off the ring, oh baby  
It's got complicated if it's more than just gold plated  
Are you single, does it mean anything

I notice the ring, we gotta slow down

She's laughing, stop worrying  
Get in the swing  
Heart pounding, I'm wondering  
Just what did she mean

I notice the ring  
I notice the ring

Say nobody's waiting  
That's it's nothing just gold plating  
That it really doesn't mean anything  
Say your grandma left it to you  
Just all you need to do is tell me that it's no wedding ring,  
Nice diamond

I notice the ring  
I notice the ring  
We gotta slow down  
I notice the ring
