Chris Isaak, We've Got Tomorrow

When clouds appear
Things look tough
We won't give in
We won't give up
We've got tomorrow, and then tomorrow
And then tomorrow goes on and on until forever
If you say you love me, too.
A simple plan
is all we'll do
You count on me
I'll count on you
And we'll have tomorrow, and then tomorrow
And the tomorrow's go on and on until forever
If you say you love me, too.
And when the hard time comes, oh darlin, don't be blue.
 You're never on your own, I'm waiting here for you.
And when the hard times come, oh darlin, don't be blue.
You're never on your own, I'm standing here for you.
So take my hand
And we'll begin
What we start
Will never end
We've got tomorrow, and then tomorrow
And then tomorrow's go on and on.
We've got tomorrow, and then tomorrow, yeah
It just goes on and on until forever
If you say you love me, too.
Until forever, if you say you love me, too.
