

# Chris Knight, Something To Keep Me Going

All the memories of our good time  
Keep crowdin' in my mind  
But I'm counting on the bad times  
To help me leave you behind  
Even though I said it's over  
I'm really not that strong  
I need something to keep me goin'  
When I'm gone  
As much as I want to turn around  
I gotta keep drivin' on  
The road to me, forgetting you  
Is hard and it's long  
When I remember how much I loved you  
I just remember how you done me wrong  
It's something to keep my going  
When I'm gone  
Still got your photograph in my wallet  
Don't know why I don't throw it away  
I used to take it out and look at you  
To get me through the day  
Now I realize when I look in your eyes  
I never really knew you at all  
It's something to keep my going  
When I'm gone  
As much as I want to turn around  
I gotta keep drivin' on  
The road to me, forgetting you  
Is hard and it's long  
When I remember how much I loved you  
I just remember how you done me wrong  
It's something to keep my going  
When I'm gone  
When I remember how much I loved you  
I just remember how you done me wrong  
It's something to keep my going  
When I'm gone
