

Chris LeDoux, All Wound Up

Since I was a baby, maybe two or three
Ain't nothin' ever really bothered me
Some people rattle at the smallest things
I thought that I could handle anything but I'm
All wound up nothin' I can do
I get all wound up just from talkin' to you
I used to believe I was immune to love
But look at me now I'm all wound up
I never wondered what it's all about
Never saw a thing I couldn't do without
My feet are used to bein' on the ground
These days I wanna kick 'em around 'cause I'm
All wound up nothin' I can do
I get all wound up just from talkin' to you
I used to believe I was immune to love
But look at me now I'm all wound up
All wound up
All wound up
Fame and fortune I can take or leave
Ain't much about it that I really need
We're still together after all this time
Honey child, I'm here to tell you that
I'm still
All wound up nothin' I can do
I get all wound up just from talkin' to you
I used to believe I was immune to love
But look at me now I'm all wound up
Yeah, look at me now I'm all wound up
