

# Chris LeDoux, All Wound Up

Since I was a baby, maybe two or three  
Ain't nothin' ever really bothered me  
Some people rattle at the smallest things  
I thought that I could handle anything but I'm  
All wound up nothin' I can do  
I get all wound up just from talkin' to you  
I used to believe I was immune to love  
But look at me now I'm all wound up  
I never wondered what it's all about  
Never saw a thing I couldn't do without  
My feet are used to bein' on the ground  
These days I wanna kick 'em around 'cause I'm  
All wound up nothin' I can do  
I get all wound up just from talkin' to you  
I used to believe I was immune to love  
But look at me now I'm all wound up  
All wound up  
All wound up  
Fame and fortune I can take or leave  
Ain't much about it that I really need  
We're still together after all this time  
Honey child, I'm here to tell you that  
I'm still  
All wound up nothin' I can do  
I get all wound up just from talkin' to you  
I used to believe I was immune to love  
But look at me now I'm all wound up  
Yeah, look at me now I'm all wound up
