

# Chris LeDoux, Just Enough Money, Honey

Every time the end of the month finally rolls our way  
We've got just enough money honey to see that the bills get paid  
But this time we've got an extra hundred dollars and I'll tell you what we outta do  
Let's go downtown and throw it around and just blow it on just me and you  
We can take the kids to your mama's cause our good times overdue  
We can dance all night and do it up alright but before the night is through  
Let's drive down to the river the way we used to do  
Let's take a little money honey and blow it on me and you  
Well I've been doin' the best I can just to bring the bacon home  
And you've been slavin' every day to make this house a home  
But I've heard that too much work well it sure ain't good for you  
So let's take a little money honey and blow it on me and you  
We can take the kids to your mama's cause our good times overdue.  
We can dance all night and do it up right but before the night is through  
Let's drive down by the river the way we used to do  
Let's take a little money honey and blow it on me and you  
Well let's take a little money honey and blow it on me and you
