

Chris LeDoux, When I Say Forever

Talk is so cheap anybody can say they're gonna give you endless love
Then turn their back and just walk away when the going gets a little rough
But when I took your hand and when I took those vows
I knew forever I'd be true
And when I say forever I mean forever it'll go on until the end of time
The world may stop turning the sun may stop burning
But I know that my love will still survive
And when I say forever I mean forever

Now God only knows what tomorrows may bring maybe sunshine maybe rain
And I don't know much but I know one thing this heart of mine will stay the same
And honey I've got my faults but I'm a man of my word
And I mean exactly what I say
And when I say forever...
(guitar)
And when I took your hand and when I took those vows
I knew forever I'd be true
And when I say forever...
And when I say forever...
It'll go on forever
