

# Chris Murray, We Do The Ska

All we do is waste our time  
At least if you ask our neighbors  
You never see we inna factory line  
Or sitting and pushing paper  
We do the ska  
Yeah, we ska, yeah, we ska  
And ska is all we need  
Headed for the big big time  
Ready to face our vultures  
Signing on the dotted line  
Designing to raise our culture  
We do the ska  
The thicker the lumber, the stronger the beam  
The deeper the water, the cooler the stream  
Now rudie come lately all over the scene  
Trading the black and white for green  
Because he don't know what it mean  
We do the ska  
No voice from the tower  
Can tell me what's real  
You bring your own honor  
So honor the real deal  
Yes, they would take you to the moon  
If you would only change your tune  
Waving the mighty dollar sign  
They bait and hook their bottom line  
But now we say goodbye to greed  
Because we life is sewing seed  
So red stripe and collie weed, yeah  
And ska is all we need, we do the ska
