

Chris Norman & Nino De Angelo, Every time I close my eyes

I see my baby everytime I close my eyes
And when my baby's close to me
Oh, my time flies
And if you knew
My baby,
You would fall, too
Every time I close my eyes
Every time I visualise
The way that she holds me
The way that she needs me
There's something in the way that she smiles.
Every time I close my eyes
Every time I fantasise
The way that she touches me
To know that she loves me
Makes me feel I'm touching the skies.
With each and every
Breath I take she's always there
Oh, no other girl could
Ever break this love affair.
What can I do
Oh Baby, Baby, Baby, I can tell you
Every time I close my eyes
Every time I visualise
The way that she holds me
The way that she needs me
There's something in the way that she smiles.
Every time I close my eyes
Every time I fantasise
The way that she touches me
To know that she loves me
Makes me feel I'm touching the skies.
She's my woman, my everything
I can feel my heart going crazy
I'm a fool for her love and I know
That I would die for my babe.
I would die for my babe
My heart won't forget
Even when we're so far apart.
I cry a river of tears for her love
Till I can keep her safe in my heart.
Every time I close my eyes
Mhmm
The way that she holds me
The way that she needs me
There's something in the way that she smiles.
Every time I close my eyes
Every time I fantasise
The way that she touches me
To know that she loves me
Makes me feel I'm touching the skies.
I see my baby
Every time I close my eyes
And when my baby's close to me
I might
I see my baby
Every time I close my eyes
And when my baby's close to me
I might
