

# Chris Norman, Now I'm Sure

I never felt a love like this before  
Until you came, I felt washed up upon the shore  
You came along and now my life has changed  
And things just seem to fit don't feel the same

Now I never really felt the waves come in  
And now I'm in so deep and I can't swim  
You turned my life completely upside down  
And now I can't believe the love I found

Now I can feel a kind of wonder run through my life again  
And the winter's turned to summer one more time  
There have been many times believe me  
When I thought that life was easy, now I'm sure, yes I'm sure

Now you are here and the sun shines on my face  
I was standing in the cold so out of place  
I've never been so sure of anything before  
Now with you beside me I can't ask for more

Now I can feel a kind of wonder run through my life again  
And the winter's turned to summer one more time  
There have been many times believe me  
When I thought that life was easy, now I'm sure, yes I'm sure

Now I can feel a kind of wonder run through my life again  
And the winter's turned to summer one more time  
There have been many times believe me  
When I thought that life was easy, now I'm sure, yes I'm sure
