Chris Rea, Dancing Shoes

Could have been a long hot summer night When all the stars were shining bright Against the blue Could have been that famous decade scene Top hats and tails, spinning 'round the room

And all I remember is not wanting the music to end And all I remember is feeling a need that I could not hide Don't take away those dancing shoes Don't take away that boy's dancing shoes

And ever since that very night
I found me a guiding light, light the way
To turn off the music is to turn off the light in my soul
So just let it shine mister
One more time for me and my babe
Don't take away those dancing shoes
Without the rhythm you got the blues
Don't take away those dancing shoes
Don't take away that boy's dancing shoes
