

Chris Rea, Looking For A Rainbow

Well we come down to the valley
Yea we're looking for the honey
I see a rainbow
I say that's the land of milk and honey

Me and my cousin
Me and my brother
My little sister too
Come looking for a rainbow
Yea we're looking for a rainbow

Well we come down to the valley
Got our babies in our arms
Yea we're Maggie's little children
And we're looking for Maggie's farm

Me and my cousin
Me and my brother
My little sister too
Come looking for a rainbow
Yea we're looking for a rainbow

Well we come down to the valley
We ain't far away no more
You can't leave us dying this time
'Cos we're all around your door

Me and my cousin
Me and my brother
My little sister too
Come looking for a rainbow
Yea we're looking for a rainbow
