

Chris Rea, Who Do You Love

WHO DO YOU LOVE

How does it feel

Now that you know

What makes it work

How far it can go

Your innocent dream

Didn't know how to play

The game that was needed

And now I hear it say

Who do you love

Who do you really love

What are you thinking of

At the end of the day

What do you want

What do you really want

There's no question you want

And somehow save the day

And all those that don't really know

See a bright sunny day

But the glory that shone

Like a sweet summer rain

It rolls off you and dissapates

Just as fast as it came

Who do you love

Who do you really love

What are you thinking of

At the end of the day

What do you want

What do you really want

Who do you love

Who do you love

Who do you really love

What are you thinking of

At the end of the day

What do you want

What do you really want
