

# Chris Stapleton, Trust

Though we jump through hoops  
And dance on wires  
Walk on broken glass  
And play with fire  
Though we're blindfolded  
When we turn on the light  
I know everything will be alright

If you trust in true love  
And you trust in time  
If you trust in forever  
Trust this heart of mine  
We could lose ourselves  
Just like lovers do  
If you trust in me like I trust in you  
Trust in me like I trust in you

Too many people have been let down  
By broken promises on rocky ground  
And there's cracks in the pavement  
I don't wanna fall through  
Hold on to me  
And I'll hold on to you

If you trust in true love  
And you trust in time  
If you trust in forever  
Trust this heart of mine  
We could lose ourselves  
Just like lovers do  
If you trust in me like I trust in you  
Trust in me like I trust in you

Now, there are cynics  
With rusty knives  
Trying to cut away the good in our lives  
But I don't care what they believe  
With you I have everything I need

And if you trust in true love  
And you trust in time  
If you trust in forever  
Trust this heart of mine  
We could lose ourselves  
Just like lovers do  
If you trust in me like I trust in you  
Trust in me like I trust in you
