Chris Young, That Makes Me

I like an old guitar Playin' a Gosdin song

In a smoky bar

That's what turns me on, yeah

If that makes me a little old school

Go ahead and call me yesterday's old fool

If that makes me a little throwback

Throw it at me, don't worry, I can take that

Call me hick, hillbilly, hell I'm proud to be what that makes me

I like a 60's truck

The kind that's solid steel

The kind that always runs

It takes a man to turn that wheel

If that makes me a little old school

Go ahead and call me yesterday's old fool

If that makes me a little throwback

Throw it at me, don't worry, I can take that

Call me hick, hillbilly, hell I'm proud to be what that makes me

Yeah, I don't swear in front of no woman

I answer yes sir to my old man

I drink my liquor with a side of nothin'

Yeah, good and country that's what I am

If that makes me a little old school

Go ahead and call me yesterday's old fool

If that makes me a little throwback

Throw it at me, don't worry, I can take that

Call me hick, hillbilly, hell I'm proud to be what that makes me

What that makes me
