

Chrisette Michele, Forever Mine

One look in your gentle eyes
Let me know I would spend my life
All my years in your gentle arms
All my days with your love so warm
One sound of your precious voice
Let me know that I had no choice
I knew I'd be forever yours
All of my life
Forever mine
Until the blue sky fades away
All of my days
No other way
There are only three words I will say
(I love you)
I love you like the king you are
I love you like the sky loves stars
I love you like the grass loves green
I love you the way you love me
Never a day I thought I'd see
The way true love would be
I know I'll be forever yours
All of my life
Forever mine
Until the blue sky fades away
All of my days
No other way
There are only three words I will say
(I love you yes I do)
I love you and I need you
I adore you
You'r so sweet
I'm here and you'll be there for it
Forever you and me
All of my life
Forever mine
Until the blue sky fades away
All of my days
No other way
There are only three words I will say
(There are only three words I will say)
All of my life
Forever mine
Until the blue sky fades away
All of my days
No other way
There are only three words I will say
(I love you yes I do)
All of my life
I will love you
Oh I promise
I will need you
All of my, all of my life
Yeah
All of my life I will spend my life with the one
Who I love
I love you and I need you yes
All of my life
Forever mine
