

Chrisette Michele, I Am One (Bonus Track)

Help my sister, did you make a mistake?
There's life and you're pally and it's too much to take
Hey there, my friend, I heard of your dad
He was a hero and the towers were crashed
(I am one)
And I'm reaching for you
(I am one)
And together we're two
I'll be your strings and I won't let you fall
And together we'll find one more
Hey little girl, little Indian girl
Can I give you some bread and the peace of my world?
Look to my fingers, there's hope in my hands
Come to my pocket and I'll give what I can
(I am one)
And I'm reaching for you
(I am one)
And together we're two

I'll be your strings and I won't let you fall
And together we'll find one more
If one can do anything
Then two can change the world
If one can make a difference
Then together we're so much more
There was a flood not long ago
It took my people and it tattered my soul
(I am one)
And I'm reaching for you
(I am one)
And together we're two
I'll be your strings and I won't let you fall
You may not have much
But alone I am one without you
