Through

Remember when we were friends?

we had it all.

we agreed to be best friends forever

but now its gone.

what happend?

you left.

and im sick of crying

~Chrous~

im falling forever

never to reach the bottom

you lied to me, deceived me big

you had me fooled

but YOUR the fool.

believe me

im through.

as far as you kno,

we never were.

as far a i kno, YOU never were.

I woke up to find

im not dreaming.

now im here to tell you,

im through

we're through

~\*Chorus\*~

how could you betray me

i loved you,

but now we're through
