

# Christian Bautista, Captured

I was captured the moment we met  
Carried away with every word you said  
It's a mystery how you got to me  
I fell in the spell of your charms  
With your siren's smile you caught me off guard  
Just one glance took away my breath  
Then you drew me in with your tenderness  
You captivate my soul, I'm enraptured  
You knocked me out and you locked me up  
Stole my heart like a thief at love  
Keep me here in your happy ever after  
I'm captured  
By the way just in case you care  
I'm here to stay, I'm not going anywhere  
I took a dive in your deep dark eyes  
And I'm never coming up for air  
I lost myself in this bond that we share  
One sweet kiss took away my breath  
Then you drew me in with your tenderness  
You captivate my soul, I'm enraptured  
You knocked me out and you locked me up  
Stole my heart like a thief at love  
Hold me tight in your happy ever after  
Now you've got the best of me  
No one else could hold the key  
I'm captured  
Just one touch took away my breath  
When you drew me in I could not resist  
You captivate my soul, I'm enraptured  
You knocked me out and you locked me up  
Stole my heart like a thief at love  
Keep me here in your happy ever after  
I'm captured
