

Christian Bautista, Just This Time

one summer has gone cold
my love just couldnt hold
some things have remained
in the soothing warmth of rain
yea

just this time
i wana let you know
that i love you so..
just for once
im gonna let u fell
that i love you still
dark clouds in the sky
would really make us cry
i know you and i
just really need to try
yea...

just this time
im gonna let you know
that i love you so.....
just for once
im gonna let you feel
that i love you still.....
the friends that we bear
hearts that we tear
we just cant be there...

just this time
im gonna let you know
that i love you so..
just for once
im gonna let you feel
that i love you still..

just this time
im gonna let you know
that i love you so!

just for once
im gonna let you feel
that i love you still.....
i love you still....
oooooo..
