

Christian Ingebrigtsen, Wonder Of The World

The Taj Mahal, the temples of Petra
The ancient hills of Jericho
Wherever I go I can't forget you
From New York to the cathedrals of Rome
No matter where the road takes me
I wanna wake up next to you
Wanna watch your body move
You're so beautiful it hurts
What a wonder of the world
To be loved by you
Somewhere between a friend and a lover
That's where I found the holy grail
Coz we can't be one without the other
Underneath the sheets and covers
you take me to a sacred place, oh
I wanna wake up next to you
Wanna watch your body move
You're so beautiful it hurts
What a wonder of the world
To be loved by you
My wonder of the world
And the wonder of it all
Is the way I look at you
Is the way you look at me
I wanna wake up next to you
Wanna watch your body move
You're so beautiful it hurts
What a wonder of the world
To be loved by you
My wonder of the world
