

# Christina Aguilera, Like I Do (ft. GoldLink)

Right  
Talk to the reverend  
but i know you better and I'm trna  
and you know we perfect  
baby girl, look at us  
make a young nigga  
cash out that running  
all the little booty in your trunk  
make a man wanna say halleluyah  
when they jump  
make them buy a little Porsche  
I;m around you so we stunt  
black man, black car  
let you uy what you want  
no, wait, baby you a problem  
Sagittarius him exciting  
looking Aguilera, so I know you got some  
Coexisting, you the moon, I;m the Sun  
genie in my bottle  
I;m trying to rub on your hips  
ain't no other man who can talk to you like I did  
that's real  
let's start a family  
I'm Uncle Phil  
you my aunt Viv  
Fly to Spain, go to Rome  
we don't ever have to ever go home  
I want to love you from head to your toe  
I like a little fuss and fighting when I go  
you say leave  
tell me stay  
want me go  
then I leave  
pouncing like I'm gone  
but you know I never leave you on your won  
and you're too bad for these brothers  
who be on your phone like

lake me make this simple for ya  
lay it out on the table for ya  
in case you need a little reminder  
I've been doing this way before you  
boy you already know my story  
you're raised an all my glory

i don't need your little money  
I can put you under something  
stop talking, we can get along  
we can Marvin Gaye and get it on  
where you want to be, I've been before

shh, say no more  
boy, you're so much better when you don't speak  
if you get something get one thing  
can't play me  
boy, I'm out of your league

no, baby you can't do it quite like I do  
I do  
like I do  
I may not want but just might have to show you  
show you  
what I do  
and you can't do it quite like I do

this feeling is legendary  
welcome to my sanctuary  
every time the first time  
but, baby, girls like my ain't temporary  
can't fake it when it comes this natural  
I ain't ever tried, it's just natural

i don't need your little money  
I can put you under something  
stop talking, we can get along  
we can Marvin Gaye and get it on  
where you want to be, I've been before

shh, say no more  
boy, you're so much better when you don't speak  
if you get something get one thing  
can't play me  
boy, I'm out of your league

no, baby you can't do it quite like I do  
I do  
like I do  
I may not want but just might have to show you  
show you  
what I do  
and you can't do it quite like I do

can't keep running your mouth  
i got time but  
what i got to lie, what I got to lie about?  
there you go running your mouth  
show me what it is  
show me right now  
cuz I can do

don't talk for the second  
just get all this lesson  
don't you second guess it  
just show some respect and  
it can go far for you

I know it's kind of hard for ya  
its not my job but you're working so hard  
I can share a bar or two  
plus you're kinda cute
