

# Christina Aguilera, Move It

This one

Can you feel it, feel the groove  
Let the music take control  
And let your body move  
Just relax, oh and listen to the sound  
Once the music takes you  
You will finally have found  
It will take, you away  
To another state of mind  
Where peace you'll find inside the sound  
Just escape, to a place  
Troubles seem to flow away when you get away

Get this party going on  
The feel of the rhythm  
Gotta, gotta make it strong  
Leave it going on  
If you wanna get away  
And ease your mind now  
Come on everybody stay  
And let the song  
Take you away, yeah

Alright

Can you feel it, feel the groove  
Let the music take control  
And let your body move  
Just relax, oh and listen to the sound  
Once the music takes you  
You will finally have found  
It will take, you away
