

# Christina Milian, I can be that women

Christina Milian - I can be that women  
Baby ,Someday you're gonna know  
There's more to get than what you've got  
You gotta learn to let go  
Stop living it up, ready or not  
Cuz you don't know what you want  
But I can show you what you're missing  
You say you've played around and then some  
But you've never had it all  
All in one woman beofre  
The way that you want her to be  
Look at me, can't you see?  
I'll be everything you ever need  
ref.  
You want sexy, baby I got it  
Undress me whenever you want it  
Everybody needs somebody  
I can be that woman  
So take it easy, but take it  
Feel me, if you need someone to make you feel this good  
I can be that woman  
Time to act, make your movie  
You gotta react honey  
You've got nothing to lose  
But the chains on your heart, the clothes on your back  
Didn't I make you get down  
Didn't I make you feel better  
Ok, we fooled around but you haven't had it all  
All that we had was one time  
A taste of the best you can find  
Step inside  
Feel me driving you out of your mind
