Til I Get Over You
Til I Get Over You
Christina Millan

Woke up today thinking of you
Another night that I made my way through
So many dreams still left in my mind
But it could never come true
I press rewind and I remember when
I close my eyes and Im with you again
But in the end I can still feel the pain
Every time I hear your name

The sun wont shine since you went away
Seems like the rains falling everyday
Theres just one heart when there once was two
But thats the way its gonna be
Until I get over you

Walk through the park in the evening air
I heard a voice and I thought you were there
I ran away but I just cant escape
Memories of you everywhere
They say that time will dry the tears
But true love burns for a thousand years
Give my tomorrows for one yesterday
Just to know that I could have you here

Repeat Chorus
Repeat last line

When will these river of tears stop falling?
Where will I ran so I wont feel alone?
I cant walk away when the pain keeps calling
Ive just gonna take it from here on my own
But its so hard to let go

Repeat Chorus

Until I get over you
