

Christina Vidal, Thought That We Were Friends

Oh uh
oh waaaahhh

The Day we met I didn't
think you be so cruel
But we had alot in common
You were the only one
I told my secrets to
But theirs where we should
of stopped it

Cause I didn't know you
were really hatin on me
sitting here
behind my back and hurt
my feelings
Now I know just where your stand
If a foam if steppin to
It deserves a hand

I thought that we were friends
Went through thick and thin
Thought that you could be someone
I could trust
But you were really like an angel in
desquise
It was all pretend
I thought we were friends

When your where havin problems
I was always their for you
No matter what you needin
you had me thinking we were tight
but I the one you used
and now I can't belive it waaahhhh

I didn't know you
were really jeaulos of me
sitting here to mess me up and
and savatise me
Now I know what your about
Your some one I could
Truly do without

I thought that we were friends
Went through thick and thin
Thought that you could be someone
I could trust
But you were really like an angel in
desquise
It was all pretend
I thought we were friends

hmm
ohhh
I thought that we were friends
Ohh yeah
How many of us have him
How many of us have them

I thought that we were friends
Went through thick and thin

Thought that you could be someone
I could trust
But you were really like an angel in
disguise
I thought we were friends
we were friends
Went through thick and thin
Thought that you could be someone
I could trust
But you were really like an angel in
disguise
It was all pretend
I thought we were friends
