

# Christopher Cross, Any Old Time

Any old time, any old time  
Any old time will do  
Everyone maybe once or twice  
Finds a friend that's a friend for life  
Somebody who believed in me like you  
From those days of childhood fights  
Through the nights when we'd ask advice  
All of those times when nobody else would do  
Any old time that you wanna hear from me  
To find your way or kick around a memory  
Like the old times, any old time will do  
I can tell when the telephone rings  
It's gonna be you just to talk about things  
It's funny how it seems to happen  
When you're on my mind  
Every time good love goes bad  
When I can't believe the luck I've had  
All of those times I'm glad you're a friend of mine  
Any old time that you need to call on me  
To find your way or kick around those memories  
Like the old times, any old time will do  
Don't you ever forget  
Any old time when the road is getting rough to climb  
And you think maybe you've had enough  
Just like the old times, any old time you're blue  
All at once I went and got a hunch  
Everything we ever felt was true  
As we find the years behind us  
And we live the years ahead  
Let's remember laughter  
And all the words we said  
Make new friends and keep the old  
One is silver and the other one's gold  
Something Sally said that stuck in my head  
And I never wanna let it go  
Any time that you wanna hear from me  
To find your way or kick around a memory  
Like the old times, any old time will do  
Any old time, any time that you need to call on me  
To find your way or kick around those memories  
Like the old times, any old time will do  
Ooh, don't you ever forget  
Any time when the road is getting rough to climb  
And you think maybe you've had enough  
Just like the old times, any old time will do  
Any old time  
Any time that you need to lean on me
