

Christopher Cross, Baby Says No

Baby says no
She can't let go this soon
Doesn't feel right
Not tonight
Even though I gave her the stars and the moon
I really think I've got it bad this time around

Baby says yes
But I must confess
It really doesn't seem to matter
'Cause I'd follow that girl all around the world
Even if I never had her
I really think I've got it bad this time around

Gonna show 'em what love can do
Gonna tell 'em 'bout me and you
Gonna show 'em what love can do when it's right
And this time it's right

Love is the light that can shine so bright
But sometimes it fades away
Then you find one that can shine like the sun
And she comes up for you every day
I really think I've got it bad this time around

Oh when the girl is so far away
I can't think of all the right words to say
But now she's here and we are all together
