

Christopher Uckermann, Light Up The World Tonight

See me, I think I'm crazy
Oh, I can't be all alone
Can you hear me?
Can you see me?
Trying find home
Energy pumping through my body
Can you feel the electricity from me?
Flashing lights everywhere,
No time to look, stop or stare
Just release and let it be
Get Crazy
We're breaking free tonight (2x)
La vida es como una estrella
Puede brillar en cada instante
La vida es como una estrella
Puede brillar en cada instante
You shine just like the stars
We'll gonna light up the world tonight
You shine just like the stars
We'll gonna light up the world tonight
We'll gonna light up the world tonight
Uhuuuuuuuuu
We'll gonna light up the world tonight
Uhuuuuuuuuu
We'll gonna light up the world tonight
Every moment in my life
Every day that passes by
I just try to be myself
This is who I use to be
Let the music set you free
If you are in need of help
Get Crazy
Uhuuu
We're breaking free tonight (2x)
La vida es como una estrella
Puede brillar en cada instante
La vida es como una estrella
Puede brillar en cada instante
You shine just like the stars
We'll gonna light up the world tonight
You shine just like the stars
We'll gonna light up the world tonight
We'll gonna light up the world tonight (3x)
