

# Christy Carlson Romano, Dive In

just dive in let the good times roll,  
nothing feels better then go,  
just dive in,  
you know it feels good when you dive in,  
you see a new day,  
but you cant get out of bed,  
your heading nowhere,  
got nowhere to put your head,  
everythings spinning,  
its like im not living,  
cant even face the door,  
but this guys not that pretty,  
gotta get up and play,  
the game is on,  
just dive in let the good times roll,  
nothing feels better then go,  
just dive in,  
you find it feels good when you dive in,  
free your mind let the whole wold know,  
turn it up matter and take control,  
yeah dive in,  
you know it feels good so go on and dive in,  
you've got the power,  
you've got the whole world upside down,  
hey this is your hour,  
you gotta lift off of the ground,  
if you wanna go flyin' then there's not dennyin',  
which you've been searchin' for,  
i've been up through the clouds,  
you're not comin' down,  
its time to start,  
just dive in let the good times roll,  
nothing feels better then go,  
just dive in,  
you know it feels good when you dive in,  
free your mind let the whole wold know,  
turn it up matter and take control,  
yeah dive in,  
you know it feels good so go on and dive in,  
come on in,  
oh yeah the waters fine,  
wash away,  
our troubles on your mind,  
feel your spill,  
take a breath and come to life,  
say it free,  
lay it down,  
let it out,  
oh,  
doo doo doo doo doo yeah,  
if you alway play safe,  
and look both ways when roll the dice,  
just dive in,  
you know it feels good when you dive in,  
i know that you can do it if u just belive,  
nothin good your gonna gain,  
whats it gonna be,  
just dive in let the good times roll,  
nothing feels better then go,  
just dive in,  
you know it feels good when you dive in,  
free your mind let the whole wold know,  
turn it up matter and take control,  
yeah dive in,

you know it feels good so go on and dive in,  
if you alway play safe,  
and look both ways when roll the dice,  
just dive in,  
you find it feels good when you dive in,
