

# Christy Lauren, I Want What I Want

Tears, money, honey on my bread  
Sugar on my pillow, songs in my head  
Head to the church, I love to repent  
Say what I mean when it's not what I meant  
Oh I wanna lay in bed on Monday  
Wearing a diamond studded hat  
Live a good life, a full life, do it all again  
Love one man forever, who's a thousand men

Chorus:

I want what I want  
I want it now  
I feel what I feel  
Don't bring me down  
I know what I know  
I don't know how  
I want what I want and I want it now  
I want to lead, follow, wallow in the mud  
Do it for my Daddy, do it for God  
God knows, am I getting it wrong?  
But who the hell cares when you're gettin' it on?  
Oh I want something to believe in  
When it all comes crashing down  
Remake the world, no pain or violence  
Turn up the volume, 'til there's a total silence

(Repeat chorus)

So take me to an angel  
Who has seen it all before  
'Cause tonight I need an angel  
To come walking through my door  
Do it for my Daddy, do it for God  
God knows, am I getting it wrong?  
But who the hell cares?

(Repeat chorus twice)
