

# Chrome Division, Let's Hear It

Another day on a dusty road  
We've got a long way to go  
Don't even bother lecturing us  
'Cause we already know  
We should've been here a long time ago  
We had a lot to do  
Get ready 'cause here it comes  
Tonight is all for you  
Let's hear it  
We're finally coming to town  
Let's hear it  
From everyone around  
Let's hear it  
Satisfy your soul  
Let's hear it  
Doomsday Rock n' Roll  
I've been travelling on the Devil's trail  
Sometimes it's hard  
Without some good friends along the way  
You never make it far  
We've been working on that good old beat  
Just to get it right  
Feel so damn good inside to  
Read 'Live Tonight'  
Another day on that dusty road  
But I do it for you  
We do almost anything  
Just to pull it through  
Here we are in front of you  
Here to drive you wild  
Little girl...  
Won't you take off that tiny shirt  
It's time to make me smile
