

# Chromeo, Come Alive (ft. Toro Y Moi)

I asked your boss for your number  
I never wondered which way we'd go  
You woke me up from my slumber  
Now let me make you work slow  
It's not a lot, but all I want to do  
Is skip town on a weekend with you  
There's still so much to discover  
There's still a lot we don't know

Come alive  
Give it up girl before you lose your mind  
Come alive  
Got you under pressure, doing overtime

[Toro Y Moi:]  
You're working double just to have a life  
I like to think that it's just a phase  
Treading anything that takes your time  
Seconds pass and you're on your way  
Help me understand what you need  
Help me figure out what isn't right  
Consider swimming if you start to sink  
Or you could get left behind

Come alive  
Give it up girl before you lose your mind  
Come alive  
Got you under pressure, doing overtime

The night shift  
The day shift  
We could go anywhere and they won't say shit  
I wish I could love you down right now on the kitchen floor  
Cause we got something so real  
However they feel doesn't really matter no more  
So let's see you walk up out of that door

Come alive  
Give it up girl before you lose your mind  
Come alive  
Got you under pressure, doing overtime

I can tell if you realize
