## Chronic Future, Shellshocked

Lies won't save you from the bomb that you just dropped I'm standing shellshocked but I'm still here
And this to you is what I'm saying

All that's false will

Fade away

You run away from what you know will surely come I will remember everything that you have done

And this to you is what I'm saying

All that's false will

Fade away

I'll say it again because

Who are you

To say to me

That I'm not all right

You don't know it's like

I'm shellshocked

And ripped apart inside

No I'm not all right

You don't know what it's like

Well yeah a change in character is great

And if it's what you need to say

It's probably what I need to hear

But never again in that way

I don't care what I'm doing that turning you off of me

It's my care for pursuing our friendship responsibly

That means I need to reconstruct what happens subconsciously

So we don't continue to treat our silence so obnoxiously Lies won't save you from the bomb that you just dropped

I'm standing shellshocked but I'm still here

And this to you is what I'm saving

All that's false will

Fade away
