

Chuck Berry, My Little Love Lights

This little love-light of mine are you gonna let it shine

This little love-light of mine are you gonna let it shine

This little love-light of mine are you gonna let it shine

Let it shine, let it shine, let it shine

With your arms wrapped around me my little love-light will shine

With your arms wrapped around me my little love-light will shine

With your arms wrapped around me my little love-light will shine

Let it shine, let it shine, let it shine

Someday soon you promised me you'd make my love-light shine

Someday soon you promised me you'd make my love-light shine

Someday soon you promised me you'd make my love-light shine

With a kiss, your arms around me, make it shine

Wee, wee hours come and let my love-light shine

In the wee, wee hours let my lil' love-light shine

In the wee, wee hours let my lil' love-light shine

Let it shine, let it shine, let it shine
