

# Chuck Wicks, Mine All Mine

Girl youve been so busy  
I aint seen you around  
You got the world on your shoulders  
Let me help you put it down  
Baby, come inside  
And leave it all behind  
You got your boss, your friends, your family  
Every second of the day  
People push ya  
People pull ya  
A million different ways  
Im feelin it too  
Ill tell ya what Im gonna do  
Now that I got you here  
All to myself  
Baby, I aint sharing you with no one else  
Youve been everybody elses all week long  
But tonight youre mine, all mine  
If you go get the blinds  
Ill turn off the phone  
Then Ill pour a little wine  
Baby, make yourself at home  
All I wanna do is spend some time on you  
Now that I got you here  
All to myself  
Baby, I aint sharing you with no one else  
Youve been everybody elses all week long  
But tonight youre mine, all mine  
It might sound a little selfish, I know  
But can you blame me  
Ive been missin you so  
Ohhh  
Youve been everybody elses all week long  
But tonight youre mine, all mine  
Yea, tonight youre mine, all mine, all mine  
Yea, yea  
Mmmmmm
