

# Chynna Phillips, Free This Feeling

I can see this light turn on  
I could hear my name  
And I knew I would never be the same  
There was no dust in my eyes  
Seeing's believing

'cause I've looked my demons in the eye  
I've stared them down  
And I know I've got the strength to let you in  
I don't know where we're going  
But I know where I've been

Chorus:  
Time is flying  
I'm not crying  
Standing in this moment  
I can feel my sadness dying  
I'm freeing this feeling

I can hear your laughter  
I can feel the rain  
I can bring some comfort to your pain  
And I know you're connected  
To my destiny

And we're storming down this highway now  
Just you and i  
And we turn around and blow a kiss goodbye  
You don't know where we're going  
Well neither do i  
Let me tell ya baby

(chorus)

Do ya  
Do ya wanna kiss the sky

Time is dreaming  
I've been sleeping  
Now my eyes are open  
I could feel my spirit flying  
I'm freeing this feeling

I feel your kiss on my skin

Like the soft summer rain

I saw this light

I heard my name

I knew we'd never be the same

I knew I'd never be the same

Let me tell ya baby

(chorus)

I'm gonna set it free

Time is dreaming

I've been sleeping  
Now my eyes are open  
I could feel my spirit flying  
I'm freeing this feeling
