

Chynna Phillips, Jennifer

Jennifer beautiful child
Close your eyes
You can lay down your head
Don't you know it's time for bed

Angels fly all around you
They won't let anything harm you
While you rest

So good night now my child
Sleep tight 'till the morning sun arrives
With a new day
But now the stars
Are trying their way

To help you close your eyes

Angels fly all around you
They won't let anything harm you
While you rest

So good night now my child
Sleep tight 'till the morning sun arrives
With a new day
And with it there's hope
Of a new day
And never forget, every new day's for you
But now it's time for sleep
