

Chynna Phillips, Jewel In My Crown

On this night
I'll give my soul to you
The warmth of your eyes
Holdin' my face
I'm a castle of stone
The walls coming down inside
You kiss my jaded eyes
For once in my life
I feel alive...

Chorus:
You picked me up when I was down
You up and turned my luck around
When I was feelin' all alone
You made me feel like goin' on
You held me high up on a throne
You made a queen out of a clown
And your love is the jewel in my crown

On your lips
I taste my salty tears
The anger is gone
I am your child
I was lost in a storm
Shipwrecked at sea
But you rescued me

(Chorus)

Oh you've opened up these deep
Emotions locked inside me
Oh don't leave me now
I'd drown again
I'd never mend

(Chorus)
