

# Ciara, I Got You

Hush little baby don't say a word  
Momma's gonna love you all your life  
And if you ever need a friend  
Momma's right there till the very end  
And if you're feeling down or weak  
Momma's gonna give you all the strength you need  
There's nothing in this world that I wouldn't do  
For my little future cause I love you

It all can get so out of control sometimes  
You can lose your faith, you can lose your mind  
Lose your grip, get stripped of your pride  
Till you don't know how you're gonna stay alive  
And this world can throw you over the track sometimes  
You friends can stab you in the back  
Sometimes you just break down  
When this life tries to wreck you, I protect you

I got your back, I got you  
I take your side, I lay my life down for you  
I'll crawl over broken glass, I will stand in the flame  
Take the bullet, take the blows, I would take all the pain  
Anything, anything that you gotta get through  
Hey, hey, I got you  
Hey, hey, I got you

It all can push you over the edge sometimes  
Make you wanna jump off the ledge sometimes  
Make you want stand up and scream  
You're feeling there is no one listening  
This world can put a hole in your soul sometimes  
Put you at the end of your road  
Sometimes you just break down  
When this world tries to end you, I defend you

I got your back, I got you  
I take your side, I lay my life down for you  
I'll crawl over broken glass, I will stand in the flame  
Take the bullet, take the blows, I would take all the pain  
Anything, anything that you gotta get through  
Hey, hey, I got you  
Hey, hey, I got you

I'll be there to stop the bleeding  
I'll be there to start the healing  
I will give you what you're needing  
I'll be right there  
I got your back, I got you  
I take your side, I lay my life down for you  
I'll crawl over broken glass, I will stand in the flame  
Take the bullet, take the blows, I would take all the pain  
Anything, anything that you gotta get through  
Hey, hey, I got you  
Hey, hey, I got you
