

# Cinder, Ugly

ugly ugly  
I could tell you  
for the longest time  
That retribution is sweet as wine  
please set me free  
i want to be beautiful  
so beautiful like you  
so hard to believe  
that your so beautiful  
and im so...  
all these indesicions  
blind me of my reasons  
hide me from my feelings  
never knowing why  
was it the collision  
that took away my vision  
never knowing nothing  
is soothing sometimes  
what you can't see  
if we fall behind  
it's black as the metal  
and the metal is cold  
black as the metal  
and the metal is cold  
black as the metal  
and the metal is cold  
black as the metal  
and the metal is cold  
please set me free  
i want to be beautiful  
so beautiful like you  
so hard to believe  
that your so beautiful  
and im so...  
all these indesicions  
blind me of my reasons  
hide me from my feelings  
never knowing why  
was it the collision  
that took away my vision  
never knowing nothing  
is soothing sometimes  
run  
run  
run  
was it added frustraiton  
the speculation  
self motive  
self mutilation  
ive got a purification  
cause to isolation  
i guess it's all intimidation  
so ready to test the solution  
please set me free  
i want to be beautiful  
so beautiful like you  
so hard to believe  
that your so beautiful  
and im so...  
all these indesicions  
blind me of my reasons  
hide me from my feelings  
never knowing why  
was it the collision

that took away my vision  
never knowing nothing  
is soothing sometimes  
all these indecisions  
blind me of my reasons  
hide me from my feelings  
never knowing why  
was it the collision  
that took away my vision  
never knowing nothing  
is soothing sometimes
