

Cinderella, Last Train Out Of My Heart

Waiting at the station
tears filling up my eyes
sometimes the pain you hide
burns like a fire inside

look out my window
sometimes its hard to see
the things you want in life
come and go so easily

she took the last train,
out of my heart
she took the last train,
and now i think i'll make a brand new start
she took the last train,
out of my heart

Watchin the days go by
Thinkin about the plans we made
days turn into years
funny how they fade away

sometimes I think of those days
Sometimes I just hide away
Waiting on that 9:20 train
waiting on a memory

she took the last train,
out of my heart
she took the last train,
and now i think i'll make a brand new start
she took the last train,
out of my heart

My lady's on the fly
and shes never coming back
my love is like a steam train
rolling down the tracks

she took the last train,
out of my heart
she took the last train,
and now i think i'll make a brand new start
she took the last train,
out of my heart
