

Cinderella, Take Me Back

I walked alone my heart a little colder
Trying to make it on my way
I took a ride wasn't getting any older
Seventeen was here to stay
They caught us living a dream
We tried to get out the steam

Take me back
Cause I need to be reminded
What I left behind me
So far away
Take me back
Cause I need to feel the fire
Yesterday's desire
Ain't far away

I was raised by my daddy's hand
My mama taught me how to pray
Got no regrets 'bout the things I've done
Now I'm lookin' back to yesterday
They caught us living a dream
We tried to get out the steam

Take me back
Cause I need to be reminded
What I left behind me
So far away

Take me back
Cause I need to feel the fire
Yesterday's desire
Ain't far away

Take me back
Cause I need to be reminded
What I left behind me
So far away
Take me back
Cause I need to feel the fire
Yesterday's desire
Ain't far away

Take me back
Cause I need to be reminded
What I left behind me
So far away
Take me back
Cause I need to feel the fire
Yesterday's desire
Ain't far away

Take me back
Take me back
All right
