

# Cindy Alexander, Only Love

The space between our words  
The heat before we touch  
The breath that we hold  
So that we don't say too much

The beating of our hearts  
The parting of our lips  
And the eyes that try to turn away  
That have looked so long for this

## CHORUS:

It's only love  
It's everything we fear  
Everything we need  
The reason to lose faith  
And the reason to believe  
It's only everything that matters  
Everything worth dreaming of  
It's just you and me  
And it's only love

Castles made of sand  
That crumbled at our feet  
The sound of goodbye  
Echoes in our memory

Caught up in the past  
Tangled in the chains  
And we try to fight the hunger  
That only love explains

Repeat CHORUS

## Bridge:

Love Me  
Baby rest your mind  
Feel the earth spin  
Against space and time  
It's just you and me  
and what's in between....

Repeat CHORUS
