

Cindy Vouge, Blindsided

Nothin like walkin down Avenue A
But it's not like any other day
'Cause i feel you more than ever now
Throwin me off somehow
Nothin' like a girl with an attitude
But take it all away she don't know what to do
Now i got you in my fantasy
Over & over humbling me
You got a way/ Of finding me
Do the math/ It's meant to be
But how can this be good for me
If you never know where or when
I got

CHORUS

Blindsided
So used to seeing things my own way
And I liked it
But that just don't mean anything
Now I'm blindsided
you rocked my world i never saw it coming
Got nowhere to hide
And it's not fair

Well here's that other side of me
Where I sneak into your room & watch u sleep
And you bring out the high school in me
I can't pay attention
Give me detention
Living in the moment just kills the time
I wanna find u & make you mine
My heart's a boombox beating all over town
It goes bum bum bum
You got a way/ of finding me
Add it up/ can't you see
If this is your way of getting through to me
Your tripping me up again

CHORUS

BRIDGE

I don't know what's come over me
'Cause I feel so differently
You got a way/of finding me
Do the math/it's meant to be
If this is your way of getting through to me
Well your tripping me up again

CHORUS

Blindsided
SSo used to seeing things my own way
And I liked it
But that just don't mean anything
Now I'm blindsided
You rock my world I never saw it coming
Got nowhere to hide
There's no point in askin why
'Cause baby ur makin me high
Blindsided
You rocked my world i never saw it coming
Got nowhere to hide
And I like it
'Cause baby
