

# Cinematic Sunrise, If Lilly Isn't Back By Sunset

You make me, you make me glow  
Watch the way that I light up around you  
Watch the way that I light up around you  
You make me, you make me glow  
Watch the way that I light up around you  
Watch the way that I light up around you  
Eyes wide open, but barely awake.  
(A long shot that will wait in the chances we take)  
To remind the keys Lilly and I have heard.  
There's a warm thought, That brings us together,  
This is what you wanted before,  
Yeah this is what I wanted.  
And if Lilly isn't back by sunset,  
I just don't know what I would do  
And if Lilly isn't back by sunset,  
I swear to God I hope she tells the truth  
and it's not okay, if you go or stay  
This is what you wanted before,  
Yeah this is what I wanted.  
You make me, you make me glow  
Watch the way that I light up around you  
Watch the way that I light up around you  
You make me, you make me glow  
Watch the way that I light up around you  
Watch the way that I light up around you
