

# Circa Survive, The Difference Between Medicine

Move one inch at a time  
And don't make shit rhyme  
Would it be too easy to repeat the first line?  
My minds not a well, it wont run dry  
Just keep drinking water and you'll be alright  
This is paralysis  
With no time at all to let go

Well don't call me by my full name  
All this is temporary  
It feels much better to know that you wont feel a thing  
Well don't talk about it  
Write it down but don't ask for help  
Well I can't be honest with even myself  
Did you ever wish you were somebody else?

Accomplishments are transient  
They pulled me in unremittingly  
Just lasting this long I feel relived to let repetition save me

Well don't call me by my full name  
All this is temporary  
It feels much better to know that you wont feel a thing  
Well don't talk about it  
Write it down but don't ask for help  
I can't be honest with even myself  
Did you ever wish you were somebody else?

Move one inch at a time  
And you'll be just fine  
Move one inch at a time  
And you'll find  
They pulled me in but accomplishments are transient  
They pulled me in but accomplishments are transient

Well don't call me by my full name  
All this is temporary  
It feels much better to know that you wont feel a thing  
Well don't talk about it  
Write it down but don't ask for help  
I can't be honest with even myself  
Did you ever wish you were  
Did you ever wish you were  
Did you ever wish you were somebody else?
